BLK2GO Shoulder Support

This support is designed to be used with the BLK2GO laser scanner, leaving the operator's hands free.

The support is made of aluminum tubes, its ergonomic and adjustable shape allows it to be adapted to each operator

Weight (without BLK2GO) 1,5 Kg

COMPONENTS

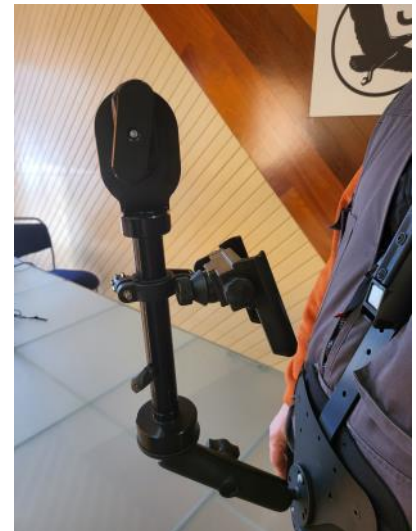

1. BLK2GO Adapter
2. Base for initialization
3. Phone holder
4. Adjustable stand
5. Carrying bag

BLK2GO Shoulder Support

Engage the two pieces by holding down the release button and adjust to the desired length.

To disassemble the two pieces, slide them while holding down both the front and rear buttons

Thanks to the quick release, the scanner can easily be used by hand.

The Leica standard pin cradle for scanner initialization is included. It can be used without the need to disassemble the BLK2GO adapter from the instrument, this way the operator can start scanning immediately after initialization

Scan&Go is the world leader in accessories dedicated to the Leica Geosystems BLK series
