DATA SHEET

BLK WINDOWS SCAN

Horizontal extensible system for scanning with Leica BLK360

BLK WINDOWS SCAN is an easy and safe system to carry out scans in all the cases where it is necessary to arrive in inaccessible places horizontally.

Thanks to its versatility it is possible to mount the BLK360 head up, upside down or horizontally.

It is supplied with two 1 meter extensions to reach up to about 2 meters beyond the limit of the horizontal support.

with your BLK360 head up or head down
